About the Academy

BioAg World (BAW) Academy is the premier global training and educational hub dedicated exclusively to the biological agriculture sector. As the agricultural landscape shifts rapidly toward sustainable, eco-friendly inputs, BAW Academy fills a critical gap: providing high-level scientific, business strategy, and regulatory education to the people driving the industry forward.

Regulatory Expertise

We excel at helping professionals navigate complex, fragmented global regulatory framework.

Commercialization Focus

We don't just teach science; we teach how to take a biological product successfully from the laboratory to the commercial market.

Global Experts

Courses are taught by globally recognized professors, senior regulatory advisors, and successful BioAg commercial leaders.

BAW Academy Sponsorship Opportunities

1 Get involved. Be Seen. Make an impact

We offer sponsorship packages designed to connect you with our highly engaging courses .

2 Pick a Sponsorship style

Package Sponsorships: Curated bundles that offer premium placement, consistent branding and added value

3 Lock It in

Once you have made your selections, we will confirm availability and finalize your sponsorship. Securing your spot early ensures optimal placement and planning.

Global Partners & Network

Our corporate network spans top-tier ag-input multinationals, high-growth biological startups, and commercial distribution channels globally include.
